Quality Policy

Value Engineering Centre (VEC) is committed to provide high quality services by building a strong culture of quality and business excellence to satisfy our customers.

The Director is responsible for this policy including effective implementation, operation and review.

All staff are responsible for the application of our Policies and System.

We at VEC:

- Establish and adhere to an effective, efficient and consistently applied Management System certified to ISO 9001:2015 to achieve our Vision, Mission and Objectives.
- Work safely with integrity to comply with statutory, regulatory and other applicable external requirements.
- Recognize and take effective control of risks associated with operational processes.
- Meet customer requirements and achieve customer satisfaction through agreed assurance processes.
- Train and develop our staff to enable them to complete their work to the appropriate quality standards.
- Work with our customers and others to develop solutions that maintain and continually improve the quality of our services and projects.
